# More glass, less frame.

Sightlines: the visible frame around the glass. A few millimetres change a room.

Why it matters

# Every inch of frame is an inch of view.

## 15/16 in

More light

### Slimmer frames, more glass

Cleaner lines

### The opening reads as one pane

Your turn

# Slim frames start at the design stage.

Large panes and slim sightlines need the right system from day one. Bring us in early.
