

WHAT WE HAVE / VISTA GUARD

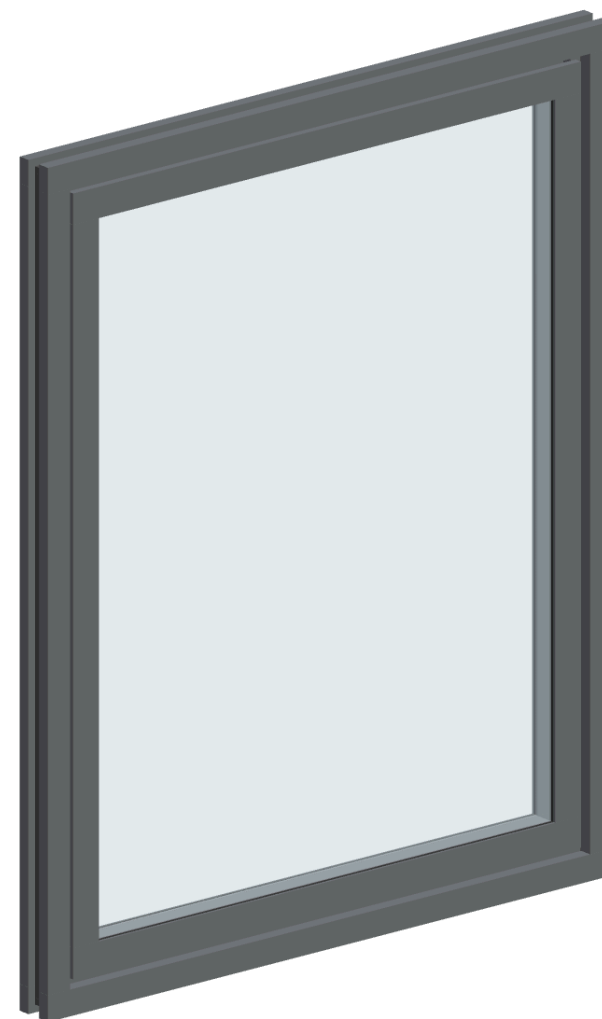

VALDA Vista: the aluminium system built to disappear.

Slim frame. Hurricane rated. Approved in the HVHZ.

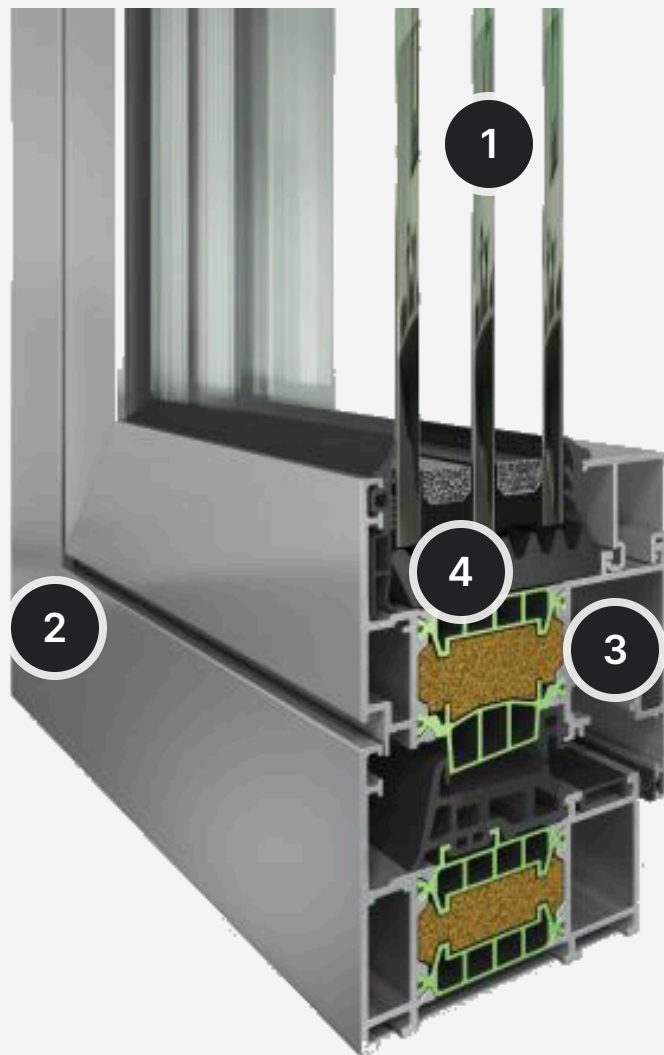

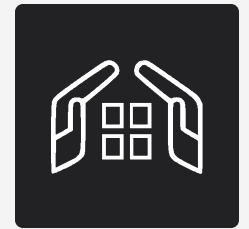

Less frame. More view.

A thermally broken aluminium frame, **slimmer than its PVC counterpart**, so the glass does the work and the window recedes.

Inside the profile.

- 1 Laminated insulating glass with a SentryGlas interlayer
- 2 Powder coated aluminium frame
- 3 Polyamide thermal break
- 4 EPDM gaskets, frame and glass

Slim, not light duty.

±65

psf design pressure,
picture and tilt & turn.

Wind Zone 4

Large missile, Missile Level D

HVHZ

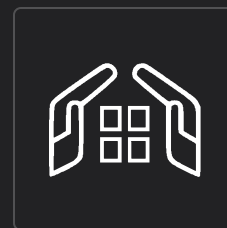

Approved in and outside

59 x 98 3/8 in

Largest picture window

0.002 cfm/ft²

Air infiltration, picture

Specifying on the coast? Start with Vista Guard.

Florida Product Approval FL39802 and FL39801. NAMI certified. No shutters or external impact protection needed.

Got an opening in mind? Tell us the size in the comments and we will point you to the right configuration.
